

Michael School News- 05.03.18

Work Hard, Aim High, Have Fun!

Dear parents/ carers,

Super Science Week!

This week we are holding a 'Super Science Week' in Michael School. The week will be filled with lots of different science based learning experiences for your child/ren to take part in! We will be looking at many different areas such as forces, magnets, electricity, plants, animals, the human body and materials over the five days of the week. We have created family groups for the children to work in for these sessions where each team is made up of pupils from each year group from Reception all the way up to Year 6! Each teacher in school will work with every group as they rotate around the areas over the week.

As well as improving their knowledge, skills and understanding of these areas of science, the children will also be developing their investigative skills in all of the different contexts. Please take some time to talk to your child about science week... I am sure they will love telling you all about their experiments and experiences! Please keep checking the website from tomorrow for lots of photographs showing their super science learning. Already today I have been around the classes and seen lots of wonderful collaborative work! If you wish to complete any experiments or investigations at home this week, please photograph your results and send them in for the children to share with everyone.

Thank you for your continued support,
K. Riley

Parent working groups

Thank you to all of you who have signed up for our parent working group tomorrow evening (**Tuesday 6th March at 6.30pm**). Please come to the main entrance as we will be meeting in the staffroom. The meeting shouldn't take longer than an hour.

For those of you who kindly offered to meet last Wednesday when we were scuppered by the snow, I would like to run the afternoon session again next **Tuesday (13th March) as 2.30pm in the staffroom**. I understand that you may not be able to make it, however if you can then please let me know.

Clubs this week...

- Unfortunately we will have to **postpone football for Reception and Year 1 on Friday (9th March)** for this week only as I am attending a training course. Football for Years 4, 5 and 6 with Mr Lythgoe will take place as usual from 3.30 until 4.30.
